

Recommended House Rentals 2018

In the following pages, please find our Recommended House Rentals. All of these properties are owned/managed separately from French's Point, so please contact the property owner directly for more information. Rental properties are a great option for families, or large group of friends who are looking to turn their trip to Maine into a vacation. Renting a house can also be more cost effective than hotels and other nightly accommodations while offering privacy and space for friends and family to gather. You can often find additional amenities not found in a hotel. Also, many of the recommended house rentals are within walking distance to French's Point!

The majority of these cottages require a week-long stay during the "prime season" months, typically July-August. You can find exactly which cottage requires a weeklong stay, and the months this is required under the row "Weekly Req". The category "Min Stay" Applies to anything outside of the months listed above. The pricing for the shorter stay varies on the number of nights and time of year. Please inquire with the cottage owner for additional information. Pricing is based on prime season months of July – August.
