Who Sets, Feeds & Extinguishes the Fire?

If you wish to use the fire pits, they are available outside of quiet hours. If you wish to use them during an event, then our staff will set, feed & extinguish the fire. If you wish to use them in the casual downtime between your events, we will provide the supplies & you will be responsible for lighting & extinguishing the fires. In either case, your planner can indicate in your weekend itinerary which fire pits you wish to use, & when, & we will be prepared to support your plans with supplies. We provide propane & firewood supplies for use.
